Professional Summary

Design-oriented MCA student with a strong interest in UI/UX design, human-centered problem solving, and digital product experiences. Skilled in translating user needs into intuitive interfaces through structured thinking and modern frontend tools. Passionate about creating engaging, accessible, and user-friendly digital solutions while continuously learning emerging technologies like AI-driven design and interaction systems.

Education

Master of Computer Applications (MCA) Gautam Buddha University, Greater Noida	2024 – 2026
Bachelor of Computer Applications (BCA) MJP Rohilkhand University, Bareilly	2021 – 2024

Experience

Full Stack Development Intern, CepiaLabs

- Designed and developed user interface components for an AI-powered travel platform, focusing on usability and responsiveness.
- Created reusable UI components using React.js and Tailwind CSS, improving design consistency across the application.
- Collaborated with cross-functional teams to translate product requirements into intuitive user interfaces.
- Enhanced user experience by optimizing layouts, improving navigation flow, and ensuring mobile responsiveness.

Projects

AI-Powered Career Path Predictor

- Designed an interactive user interface using Streamlit to provide personalized career recommendations.
- Focused on user flow, input clarity, and visual feedback for improved user engagement.
- Implemented user-centric features such as skill-gap analysis and feedback-driven improvements.

Interactive Data Analytics Dashboard

- Designed dashboards with clear visual hierarchy and user-friendly layouts using Power BI.
- Focused on effective data storytelling and intuitive visualization for better decision-making.

Portfolio Website

- Developed a responsive personal portfolio emphasizing clean UI, accessibility, and structured content layout.
- Applied principles of visual design, spacing, and typography to enhance user experience.

Skills

UI/UX & Design: Wireframing, User Flows, Interaction Design, Visual Hierarchy, Basic Prototyping

Tools: Figma (Learning), Streamlit, Git, GitHub

Frontend: HTML, CSS, React.js, Tailwind CSS

Programming: Python, C++, SQL

Core Concepts: Data Structures, OOP, DBMS

Achievements & Certifications

- 5-Star Python Rating – HackerRank
- Top 10% Performer – Elements of AI (University of Helsinki)
- Super Learner – McKinsey Forward Program

Additional Information

- Strong interest in UI/UX design, AI-driven interfaces, and emerging technologies.
- Quick learner with adaptability to new tools and design methodologies.
- Available for immediate internship and open to relocation.
